

Lead Foil and Sheets

Three standard sizes of lead foil are available in 14 in wide rolls. They can be easily cut and formed into almost any shape for shielding areas, parts of areas, or objects of all types, offering great convenience if kept on hand.

Sheet lead has numerous applications in building radiation protection systems. It is certified to meet federal specification QQ-L-201F. Sheet lead is available in a wide range of uniform thicknesses from 1/64 in (1 lbs/ft²) up to 4 in (240 lbs/ft²). Widths up to 8 feet and lengths up to 25 feet are available in rolled or flat forms.

Call us with your particular design requirements as custom sizes of sheet lead are available upon request.

Model	Thickness	Length	Width	Weight
NF006	0.006 in (0.15 mm)	22 ft (6.7 m)	4 in (35.5 cm)	10 lbs
NF015	0.015 in (0.38 mm)	9 ft (2.75 m)	14 in (35.5 cm)	10 lbs
NF030	0.030 in (0.76 mm)	4.5 ft (1.37 m)	14 in (35.5 cm)	10 lbs
