

Dr. Krishnan Suthanthiran of Best Medical International Congratulates Google on its 25th Anniversary

WASHINGTON, DC, USA, September 8, 2023 /EINPresswire.com/ -- Dr. Suthanthiran congratulates Google founders Larry Page and Sergey Brin and Google CEO Sundar Pichai on the occasion of Google's 25th anniversary. On September 4, 1998, Larry Page and Sergey Brin embarked on a journey that changed how we access information on the World Wide Web forever. They envisioned a search tool that could better organize the internet's websites and help people to make sense of the waves of information moving online. The product they built, Google Search, helped people around the world get answers to their questions. They had no idea that their research project at Stanford University would evolve into the global tech giant that we proudly know as 'Google' today.

Google continues to set records. In February 2023, Google was ranked as one of the most popular multi-platform web properties in the United States with around 274 million visitors from desktop and mobile devices combined.[1] Dr. [Krishnan Suthanthiran](#), President/Founder of Best Medical International, uses Google Search on a daily basis to find answers and gain knowledge on various topics. He believes that Google is a remarkable innovation that helps educate and provide assistance to billions of people around the world every day. Google's journey is a testimony to the power of innovation and the boundless possibilities of the Internet age.

Again, a big congratulations to Larry Page, Sergey Brin, and Google CEO Sundar Pichai on the occasion of Google's 25th anniversary.
