

PRESS RELEASE

A Warm Welcome to PM Mark Carney. Which Direction Will He Take Canada Next?

WASHINGTON, DC, UNITED STATES, May 6, 2025 — A warm welcome to Canadian Prime Minister, Hon. Mark Carney as he visits Washington, D.C., wishing him very productive, mutually beneficial, and respectful discussions today.

On April 24th, 2025, the Proud Canadian Party (a Canadian think tank, www.proudcanadian.org) issued a press release. The federal election outcome was as predicted; PM Carney secured a near majority (short by three MPs). However, in the coming weeks and months, there may be others who switch to join the big tent liberal, giving PM Carney a free hand to establish a new direction for Canada, both in trade and security relations.

While Krishnan Suthanthiran, President/Founder of TeamBest Global Companies, has invested over 100 million USD in various Canadian companies and projects, the Canadian government agencies—both federal and provincial—have been trying to put his high-tech medical company, Best Theratronics, out of business for more than 10 years. Some companies have already announced plans to reduce or shut down operations in Canada and move to the USA. The Canadian unions and government agencies have eliminated more than 100 jobs at Best Theratronics and are now forcing it to relocate to the USA and India.

Suthanthiran's own employment history in the USA began after he graduated with a master's degree in mechanical and aerospace engineering from Carleton University, in Ottawa, Canada. Unable to secure a good, professional job in Canada, he arrived in the USA in the summer of 1972 as a landed immigrant with a permanent resident visa and secured a dream job, working for an internationally renowned oncologist in Washington, DC.

Suthanthiran lost his father to cancer. It has been his dream and goal for nearly 60 years to save lives from cancer, cardiac issues, diabetes, obesity, infectious diseases, and other ailments and believes we can save as many as 50% of those who are dying today.

Suthanthiran believes he made a major mistake in choosing to invest in manufacturing in Canada. While Canadians may choose not to buy American liquor or travel to the USA, they are now investing heavily in American businesses, not Canadian ones. Most affluent Canadian citizens are dual citizens, Canada/USA, and send their children to colleges in the USA and a large number of Canadian citizens live and work in the USA.

THINK TANK

Best™ *Theratronics*
A TEAMBEST GLOBAL COMPANY

This is Canada today. PM Carney: Will you or can you change the sad and tragic state of the Canadian economy, which has very low productivity while the Canadian government agencies are anti-business and wiping out jobs in Canada?
