Mission Statement

Everyone deserves the best health care. Our goal is to work with medical professionals to provide the Best products and services. As a leader in innovative technology, our mission is to uphold our reputation for excellence in the health care field by developing, manufacturing, and delivering cost-effective, high quality products to benefit patients around the world.

Corporate Values

Fulfilling our mission requires a dedicated employee team—one that is committed to uncompromised quality and safety, and fostering a sense of pride in the company.

Best employees will:

- Honor the dignity and uniqueness of each person, including fellow employees, customers, distributors, and vendors, through their actions, words, and behavior. They will treat others with respect, as they would wish to be treated.
- Embrace the spirit of cooperation and teamwork for which Best Medical is known, an environment which supports and recognizes effort and results.
- Promote and practice open and honest communication at all times.
- Listen to others and remain open to suggestions at all times, as we focus on achieving excellence in our work.
- Attract and retain leaders with exceptional abilities and integrity.
- Ensure all resources are managed in a responsible and effective manner.
Best ADVANTAGE

- Best Medical International is the ONLY supplier of Iridium-192 and Gold-198 seeds.
- We are the first and only provider of Iridium-192 in nylon ribbons in a wide range of activities.
- We are the first and only company to provide custom service for Gold-198 permanent implants, as well as a wide range of activities.
- We are the first and only company that will call our customers the morning after shipping to inform them of mode of transportation and expected arrival time.
- We can supply Ir-192, Au-198, Pd-103, I-125 and Brachytherapy accessories on a single Purchase Order.
- We ship most materials within 24 hours of receipt of the order.
Catalog 2013 Table of Contents

Best Mick Type Needles ................................................................. 1
Best Prostate Seeding Needles ...................................................... 2
Prostate Stabilization Set Needles ................................................ 3
Needles ......................................................................................... 4
The Mick type needle's obturator is provided with a sharp trocar point while the echogenic canula tip is ground-beveled to facilitate the penetration of the skin.

The Mick type needle's hub canula is “honed” for smooth transfer of seeds from the applicator into and through the needle.

Improved Seed Distribution by Means of Prostate Gland Immobilization

Prostate Stabilization Set
The Stabilizing Needle (patented) is designed to prevent prostate movement during the insertion of prostate seeding needles. Immobilization is accomplished by deployment of a “side barb” in the prostate tissue and then securing a “lock spring” against the proximal side of the template. Two stabilizing needles must be used to adequately stabilize the prostate gland.

Features
- Two-part hub design
- Locking side barb
- Sharp bevel-point needle tip
- Echogenic tip
- 10 Pouches with 2 needles

Packaged:
18 Gauge x 20 cm sterile; box of 10 sets; 2 needles per set
