Mission Statement

Everyone deserves the best health care. Our goal is to work with medical professionals to provide the Best products and services. As a leader in innovative technology, our mission is to uphold our reputation for excellence in the health care field by developing, manufacturing, and delivering cost-effective, high quality products to benefit patients around the world.

Corporate Values

Fulfilling our mission requires a dedicated employee team—one that is committed to uncompromised quality and safety, and fostering a sense of pride in the company.

Best employees will:

- Honor the dignity and uniqueness of each person, including fellow employees, customers, distributors, and vendors, through their actions, words, and behavior. They will treat others with respect, as they would wish to be treated.
- Embrace the spirit of cooperation and teamwork for which Best Medical is known, an environment which supports and recognizes effort and results.
- Promote and practice open and honest communication at all times.
- Listen to others and remain open to suggestions at all times, as we focus on achieving excellence in our work.
- Attract and retain leaders with exceptional abilities and integrity.
- Ensure all resources are managed in a responsible and effective manner.
Best ADVANTAGE

• Best Medical International is the ONLY supplier of Iridium-192 and Gold-198 seeds.

• We are the first and only provider of Iridium-192 in nylon ribbons in a wide range of activities.

• We are the first and only company to provide custom service for Gold-198 permanent implants, as well as a wide range of activities.

• We are the first and only company that will call our customers the morning after shipping to inform them of mode of transportation and expected arrival time.

• We can supply Ir-192, Au-198, Pd-103, I-125 and Brachytherapy accessories on a single Purchase Order.

• We ship most materials within 24 hours of receipt of the order.

Custom length is available upon request.

**CAUTION:** This product should be carefully inspected by your staff prior to clinical use and should be used by authorized personnel only.
CAUTION: This product should be carefully inspected by your staff prior to clinical use and should be used by authorized personnel only.

Curved Needles

These are curved Stainless Steel Implant Needles with handle. The outer diameter (O.D.) is 0.095” and the inner diameter (I.D.) is 0.077”. Two sizes are available: short and long. The short needle has a length of 3.5” and the long needle measures 7.25”. Each handle is 4” long.

Also available: Thin wall curved short needles

- Part # 5004-0002-Long
- Part # 5004-0001-Short
This 20 cm needle is specifically designed for use with Syed/Neblett templates or disposable templates. A funnel fixed to one end makes the ribbon loading easy and less time consuming. A special cap fits over the funnel to keep the ribbon in position.

Custom length is available upon request.

Caps are for one time use only.

CAUTION: This product should be carefully inspected by your staff prior to clinical use and should be used by authorized personnel only.
CAUTION: This product should be carefully inspected by your staff prior to clinical use and should be used by authorized personnel only.

These 17 Gauge Needles are used with the templates, which improve the homogeneity of radiation. Needles of different lengths, closed end or open end, with or without collar, with or without funnel, are available. Catalog numbers of different template needles are given below:

*Other implanters also available.
**Diddler-Needle Adjustment Tool**

**Part # 5002-0010**

**Use the DIDDLER, Not Your Fingers!**

The DIDDLER is a device to adjust the position of transperineal prostate seeding needles during the time of seed implantation. Often, fingers are needed to reach behind the transperineal template to readjust the needle position. The DIDDLER replaces the need to use fingers which, in most cases, are too big to reach a needle between the template and perineum.

The DIDDLER, similar in construction to a crochet needle, is made entirely of stainless steel and consists of a long hexagonally shaped handle with a slender tip. The tip thus allows a needle to be pushed, pulled or twisted left and right even if there is a needle right next to it.

**Adjust the needle up, down and sideways without using your fingers!**

**Radiation Protection**

The DIDDLER is especially effective when needle repositioning with “HOT” Pre-loaded Prostate Seeding Needles is required. Notably, the DIDDLER is most useful in the Mick technique when numerous needles are implanted either peripherally, in rows, or all at once.

The DIDDLER is approximately 8” (20 cm) long and made entirely of stainless steel. A high-polish finish provides for easy cleaning and flash sterilization.

**The DIDDLER can be AUTOCLAVED!**
